

## CAULIFLOWER

# Colours

In the coloured Cauliflower range we have Island, Jessica and Macarena. Island has purple curds and takes on average 190 days to mature. Jessica is a lime coloured romanesco that matures in around 140 days. Macarena is a green cauliflower that matures in around 140 days. All 3 of the above mentioned products can be seeded for open field production at a density of between 35000 and 45000 seeds per hectare.
